Affidavits submitted by staff do not include grievances filed on property loss by inmates as Ms. Morrissey did not want that information. Responding staff did not approve or read the discovery responses. All info. requested in the discovery has been destroyed. Staff destroyed the information as they were informed by Judge Reinstein, Mantin and Schwatzky that they will not be held liable. Property gets lost very often. Trapati's property was lost by staff. I believe the tape and 80 pages were intentionally destroyed. Documents presented by Trapati are authentic. I have spoken to Judge O'melia today.
